

January 26 – 28, 2026

HiPEAC Conference

Kraków, Poland

ICE Kraków Congress Centre

CALL FOR PAPERS

Join us for the *8th International Workshop on Secure Hardware, Architectures, and Software (SeHAS)* as we explore the forefront of security research and innovation. We invite leading researchers, practitioners, and administrators from security and related disciplines to contribute their expertise and insights.

SeHAS provides a dynamic platform for exchanging perspectives, sharing lessons learned, and gaining new insights into securing hardware, architectures, and software.

Workshop webpage: <https://sehas-workshop.github.io>

PAPER SUBMISSION

Paper Submission Guidelines for Submitting Original Research Articles

- ☐ **Length:** Up to 4 pages in an IEEE double-column, single-blind, 10-pt.
- ☐ **Review process:** The review is processed by IEEE Embedded Systems Letters (ESL).
- ☐ **Publication:** Accepted articles will be published in IEEE ESL.
- ☐ **Presentation:** Authors of accepted papers will have the opportunity to present their work at SeHAS@HiPEAC 2026 in Kraków, Poland.
- ☐ **Registration:** One registration per presenter at the HiPEAC conference is mandatory.
- ☐ **Submission link:** <https://ieee.atyponrex.com/journal/les-ieee>
- ☐ **Article type:** Select **SeHAS** as the **Article Type** in the first step of the submission process. **Only submissions with this selection will be considered for the workshop.**

Program Chairs

Farhad Merchant
University of Groningen
Netherlands

TBD

Publicity Chairs

Lilas Alrahis
Khalifa University
UAE

Dominik Germek
Corporate Research
Robert Bosch GmbH
Germany

TOPIC AREAS

SeHAS 2026 invites original contributions in all areas of overlap between hardware and software security, including but not limited to:

- | | |
|--|---|
| <input type="checkbox"/> Hardware security | <input type="checkbox"/> Embedded security |
| <input type="checkbox"/> EDA for security | <input type="checkbox"/> Security measurement studies |
| <input type="checkbox"/> Architecture-level security | <input type="checkbox"/> Emerging technologies and security |
| <input type="checkbox"/> System security | <input type="checkbox"/> Machine learning for security |
| <input type="checkbox"/> Security of LLMs | <input type="checkbox"/> LLMs for security |

SUBMISSION and DEADLINE

September 15, 2025

Manuscript submission

Notification
