

CALL FOR PAPERS

Join us for the *9th International Workshop on Secure Hardware, Architectures, and Software (SeHAS)* as we explore the forefront of security research and innovation.

We invite researchers, practitioners, and administrators from security and related disciplines to contribute their expertise and insights.

SeHAS provides a dynamic platform for exchanging perspectives, sharing lessons learned, and gaining new insights into securing hardware, architectures, and software.

Workshop webpage: <https://sehas-workshop.github.io>

PAPER SUBMISSION

Paper Submission Guidelines for Submitting Original Research Articles

- ☐ **Length:** Up to 4 pages in an IEEE double-column, single-blind, 10-pt.
- ☐ **Review process:** The review is processed by IEEE Embedded Systems Letters (ESL).
- ☐ **Publication:** Accepted articles will be published in IEEE ESL.
- ☐ **Presentation:** Authors of accepted papers will have the opportunity to present their work at SeHAS@HiPEAC 20267 in Glasgow, United Kingdom.
- ☐ **Registration:** One registration per presenter at the HiPEAC conference is mandatory.
- ☐ **Submission link:** <https://ieee.atyponrex.com/journal/les-ieee>
- ☐ **Article type:** Select **SeHAS** as the **Article Type** in the first step of the submission process. **Only submissions with this selection will be considered for the workshop.**

ORGANIZERS

Program Chairs

Lilas Alrahis
Khalifa University, UAE

Rosario Cammarota
University of California, Irvine, USA

Publicity Chairs

Farhad Merchant
University of Groningen,
Netherlands

Dominik Germek
Corporate Research
Robert Bosch GmbH, Germany

TOPIC AREAS

SeHAS 2027 invites original contributions in all areas of overlap between hardware and software security, including but not limited to:

- | | |
|---|---|
| ☐ Hardware security | ☐ Software security |
| ☐ Embedded security | ☐ Security measurement studies |
| ☐ Architecture-level security | ☐ Vulnerability Discovery |
| ☐ System & platform security | ☐ Machine learning & security |
| ☐ Emerging technologies & security | ☐ Malware detection & prevention |
| ☐ FPGA security | ☐ Hardware/software fuzzing |

SUBMISSION and DEADLINE

September 11, 2026: Manuscript submission

ESL reviews are typically done within 4 weeks
